A dynamic and creative microcosm where new ideas constantly emerge. It began with a few art galleries in the 90`s, after which everything changed. Today, it's part of the daily life of Porto and fills with people for simultaneous openings six times a year. Roaming this area is thus about discovering the best in contemporary art<br/><a href="https://www.facebook.com/bombardaporto">https://www.facebook.com/bombardaporto</a></p> |
